Voltage:	12/24V
Power:	0.9W
Material:	aluminum
Connection:	OK-2
Raw lumens:	52 lm
Color temperature:	6000 K

A recessed interior lighting lamp made with LED technology using a diode from the renowned Osram brand.

It works perfectly as:

- **vehicle entrance lighting,**
- **illumination above passenger seats.**

The emitted light is gentle, warm and friendly, and is distributed via a computer-designed bundle.

The lamp has been equipped with a strong and durable bistable press button, built-in behind the lighting element. Installation is done with a threaded ring.

IMPORTANT: Tested in laboratory conditions and loaded with 50,000 on / off cycles.
