

EXD

A direction indicator cat. 6

Side indicator cat. 6

Catalog number:	OEI532003625_D - black OEI532003625_I - silver
Model:	DX4
Source of light:	LED
Dimensions:	149x83 mm
Voltage:	10-30 V
Connection:	Cable 210 mm
IP rating:	IP67
Approvals:	ECE R10, R148

IN THE RIGHT DIRECTION ONLY

A direction indicator is an essential component of every vehicle. The key value, sufficient visibility of the vehicle, is required as a warning and warning lamp. This is why we developed at OE Industry another model of the side indicator, of the category 6, in our new line Next.

The name "Next" stands for a new – even more subtle – style. Category 6 – indicates that the direction indicator lamp has been manufactured for vehicles with a length of more than 6 metres. The DX4 version is a modern character and a timeless guarantee of absolute security.

There are no compromises at OE Industry. Expect more and more.
