Next generation.
That is true!

 OE Industry

A NEW SPARK IN THE WORLD OF LED HEADLIGHTS

Compact design, multifunctionality, and a selection of the finest quality materials? In OE Industry, it's not fiction. Ahead of its time, we introduce the next generation of LED headlamps – the OEI Next3. The best on the market? YES! We give you our word.

NO NEED TO CHOOSE BETWEEN QUALITY AND PRICE. YOU CAN EXPERIENCE BOTH!

When designing our product, we were primarily guided by the expectations of both vehicle manufacturers and end users. In order to meet their needs, we have optimised production and selected the very best materials.

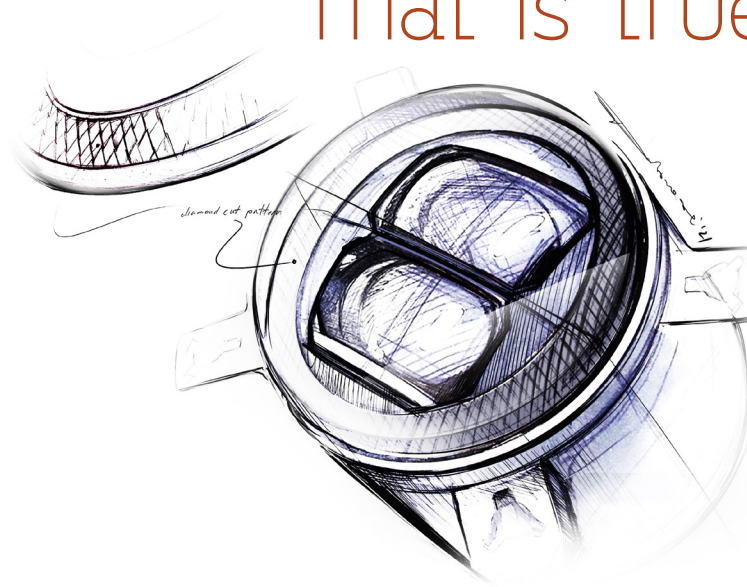

The result? In our new optical construction you will find the perfect cut-off line of the light beam, and the size of the housing is superbly compact.

REFLECT YOURSELF GREEN IN OUR HEADLIGHTS!

We know and realise that we have only one planet on which we live. Our products are carefully designed to minimize its environmental impact. The housing of Next headlights is made with low-carbon aluminum. Thanks to this, we are ready to fulfill the most stringent EU and ISO 14001 standards.

Be GREEN with us.

Next generation. That is true!
