GREEN ENERGY  
CHARGING RING

# Bi-LED headlight 4 functions (+)

Low beam, high beam, position light, DRL

 **OE Industry**

Future is customized.  
Dare to create it.

## Character and awareness ↙

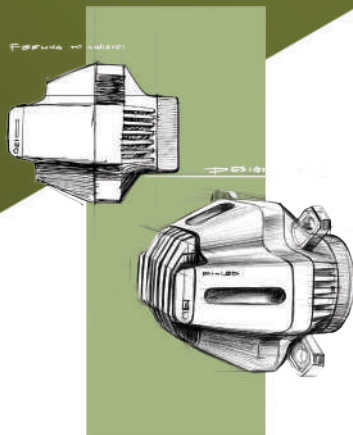

These are what determine the competitive advantage of the brand you are responsible for. Distinguishing and making it benefit your customer for years to come.

Meet the NEXT\_Horizon line from OE Industry, which was created with one very specific purpose. To enable everyone to individually configure the spotlight. Everyone. Regardless of the type of vehicle, its intended use and the scale of production.

Dare to demand what was previously only available to the greatest. Allow yourself to fully understand your needs. Your work is a mission and a promise to society – regardless of scale or series. We understand this.

OEI will support you at every stage from design to prototyping to production and finally logistics. From now on, the support, services, products and standard available only to the greatest will become the everyday work of everyone. Everyone – regardless of scale, capability and needs.
