

Reflect yourself green in our headlights!

We know and realise that we only have one planet on which we live. That is why we respect and care for the environment. How do we achieve that? We have eliminated the composite material used in our production process. Thanks to this, we are ready to meet the most stringent EU standards regarding the prohibition of the use of plastic materials.

Be GREEN with us.

N X 3

Compact design, multifunctionality, and a selection of the finest quality materials? In OE Industry, it's not fiction. Ahead of its time, we introduce the next generation of LED headlights – the OEI NX3. **The best on the market? YES! We give you our word!**

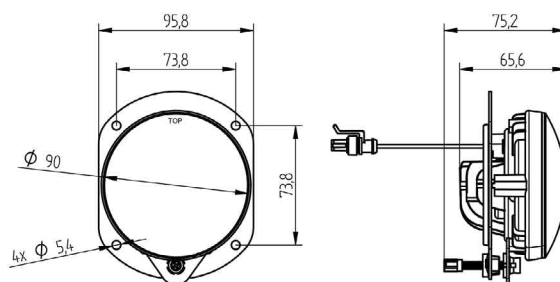

You might be asking: **what makes this particular headlight so special?**

The answer is simple. When designing our product, we were primarily guided by the expectations of both vehicle manufacturers and end users. In order to meet their needs, we have optimised production and selected the very best materials.

The result? In our state-of-the-art optical construction from Koito, you will find the perfect cut-off line of the light beam, and the size of the housing is superbly compact.

What else? The headlight is made of aluminum, which allows us to take better care of the environment.

Why did we do that? Because in OE Industry the highest quality is always affordable.

Catalog number	OEI132003109
Model	NX3
Dimensions	Ø90 x 66 mm
Functions	fog light with cornering
Voltage	12/24V
IP Rating	IP68
Connector type	Superseal
Approvals	ECE 10R, 19R, 119R
